NEUTRAL ELEMENT, EN-905 C

Neutral elements are used as a support for the different cooking containers, pans and devices. They are also used as a working top and to prepare the dishes that are to be served.
 2 mm stainless AISI-304 steel top with rounded edges for easy cleaning.
 Laser cut and automatic welding for a perfect adjustment of sides between modules with square angle finish.
 Element with drawer.
 High temperature enamelled cast iron chimney protector
 Modules ready to have a filling water inlet or water tap installed at the back.
